

EPA CERTIFICATE

CERTIFICATE

The Fitch® Fuel Catalyst manufactured by Advanced Power Systems International Inc. has been certified under the EPA Voluntary Aftermarket Parts Certification Program 40CFR85.2114 as defined in the Federal Register Volume 54, No. 151 having satisfied all the requirements of the program as an emissions related part which is defined in 85.2102(14) as “those parts installed for the specific purpose of controlling emissions.”

“The MOD Director shall deny certification to any parts which he or she determines is not an emission related part.” 85.2114(1)

As a result of this certification an automotive dealer may not deny warranty coverage for a vehicle based on the presence of the Fitch® Fuel Catalyst. This certification applies to all 2005 and earlier model year gasoline engines certified to the Tier 0 emission standards and also applies to diesel fueled light-duty trucks of engine family H3G6.2K7ZZ42.
